

Diego Raúl Maury Reveles

Strategic Program Director

Integrate strategy, operations, and ecosystems to turn complexity into executable systems

Mexico City (GMT-6) · dm@diegomaury.mx · +52 56 5926 7516 · diegomaury.mx · linkedin.com/in/diegomaury · English C1

PROFESSIONAL SUMMARY

I work with organizations that have strategy, budget, and talent, but not the system that connects everything into execution. I design the programs, processes, and coordination mechanisms that turn organizational complexity into measurable, transferable operations. This is program management and program design applied to results, not rhetoric.

I turn partnerships and strategic opportunities into executable programs, operating systems, and measurable outcomes: the alliance is the input, the program is the vehicle, and the measurable result is the output.

15+ years of professional experience, including 7+ in innovation and ecosystems. In the most recent cycle, that includes designing and operating AI agents in production, not just using them.

- **Program design and operations.** From strategy to execution with metrics and governance.
- **Systems, automation, and applied AI (RevOps).** Commercial processes, AI agents, and data pipelines that run without constant supervision.
- **Ecosystems and partnerships.** Communities and alliances built from the ground up and turned into programs that scale.

EXPERIENCE

INFORSA · Instructional Designer & Facilitator, Executive MBA

Nov 2025 – Jun 2026

- Delivered 24 hours of instruction in the Executive Management Diploma (MBA level), covering Digital Transformation, Talent Management and Organizational Culture, and Purpose-Driven Business, ESG and Sustainability, for executive profiles.
- Facilitated 16 hours in the Human Resources Diploma, covering strategic management and legal frameworks.
- Implemented AI in the instructional design process, accelerating the build-out of learning paths, modules, and materials.
- Designed project-based modules for senior and mid-level executives: critical process diagnosis, auditable KPI definition (formula, source, and baseline), and To-Be model design.

FlipHouse · Fractional Strategic Operations Director

Oct 2025 – Jun 2026

- Operated as fractional operations director covering strategy, RevOps, marketing, automation, and AI in a single integrated system for 10 months.
- Designed and implemented SOFI: an automated lead qualification system with conversational AI (voice + WhatsApp). Went from ~0% to **89.5% automated coverage** over 191 real leads; speed-to-lead from 1–3 days to under 5 minutes.
- **173 leads contacted automatically in ~1.5 hours** in a single campaign, with zero human intervention.
- The system processed **1,661 messages** (1,214 sent by the agent), **295 unique conversations**, and generated **6 active opportunities** and **34 successful contacts** in HubSpot.
- Lead response rate over contacted leads: **74.9%** with no sales advisor intervention.
- Increased the flow of leads processed into the CRM from 5 to 30 per week (**+500%** over a declared baseline of 5 leads per week).
- SOFI orchestrates three AI models (reasoning, voice, and transcription) with a state FSM, Redis, PostgreSQL, and an F1/F2/F3 architecture that guarantees a terminal state for every lead.
- Became a Meta technology provider by creating and getting approval for the official app required for WhatsApp Flows, including LFPDPPP compliance.
- Designed the institutional pitch deck for fundraising and the operational command center in Notion as the single source of truth.
- Rebuilt the CRM as the pipeline single source of truth: froze the HubSpot taxonomy (lifecycle, lead status, and deal stages) as the foundation of the commercial system, and delivered the due diligence package for the funding line (Sivo).
- Built the end-to-end data integration (Meta Lead Ads to Make to HubSpot to VAPI) with deduplication, per-lead traceability, and a speed-to-lead SLA under 5 minutes.
- Ran up to 3 simultaneous Meta Ads campaigns (\$78,532 MXN managed) with KPI dashboards and automated weekly reporting.
- Stack: HubSpot, Make, WhatsApp Cloud API, VAPI, Claude API, ElevenLabs, Notion.

Tecnológico de Monterrey · Professor of Entrepreneurship & Innovation

Jan 2022 – Dec 2023

- Taught project-based courses in entrepreneurship, innovation, and strategic thinking; mentored students in validation, pitching, and competitions.
- Designed curricula and learning experiences with an emphasis on Agile methodologies, business model design, and applied innovation strategy.
- Supported students in maturing projects across TRL stages, from idea to validation and preparation for competitive calls.

HackSureste · Founder & Innovation Program Director

Mar 2018 – Dec 2023

- Founded and scaled the innovation and entrepreneurship ecosystem in southeast Mexico (Veracruz, Tabasco, Chiapas, Campeche, Yucatán, and Quintana Roo), integrating talent from 6 states.
- 3,000+ participants across the program (operational estimate, not cumulative with INCmty figures).
- Designed a modular program architecture: core hackathon plus extensions (WIRE for remote technical training, ideaLab for sustainable entrepreneurship, Talent & Challenges).
- Delivered the first in-person edition in Mérida (2018) with nearly 250 participants, then expanded to Ciudad del Carmen (2019), sustaining operations despite losing 3 sponsors and the venue 7 days before kickoff.
- Led full virtualization (2020 to 2022) with a Lean approach, increasing regional participation 6x.
- Built quadruple-helix partnerships (academia, private sector, government, and ecosystem) for territorial anchoring.
- Ported methodology and operations to platforms with stable budgets (INCmty, HEINEKEN, REDUX) to preserve impact beyond the brand.
- Operated REDUX and the HEINEKEN Green Challenge through HackSureste as an operating provider for INCmty; program detail and figures live in the INCmty section.
- Ran technical and audiovisual production for HackSureste's digital extensions (WIRE) and institutional projects (Parque Orión, Startup Chihuahua, Semana Tec, BTEM Bootcamp).

INCmty (Tec de Monterrey) · National Program Director, Innovation & Entrepreneurship

Feb 2019 – Nov 2022

HEINEKEN Green Challenge · national director, 4 editions (2019–2022)

- Directed the national operation of the HEINEKEN Green Challenge (HEINEKEN México and INCmty): **3,231 projects reached** across 4 editions (aggregate, operational estimate), with a peak of **1,325 projects, 3,975 entrepreneurs, and 562 universities** in 2020. In 2021, the program registered 2,400 entrepreneurs, 748 projects, and 304 universities.

- Redesigned and virtualized the end-to-end process during the pandemic: evaluation rubric, go/no-go pre-filter, and a 5-day national bootcamp with 5 hours per day to absorb the jump from 200 to 1,325 projects per edition without operational collapse.
- Built and operated the **100+ mentor network** per edition, with assignment criteria by stage and vertical.
- Built partnerships across government, universities, and the private sector to open regional entry points, driving **+600% growth** in southeast Mexico between the first and third editions.
- Led recruitment for **9,905 enrolled participants** across the aggregate of INCmty programs under management, HGC included (2019–2022, operational estimate).

REDUX · creator and methodological designer, 5 editions (2020–2022)

- Conceived and designed REDUX from scratch as the HGC pre-launch: a sustainable entrepreneurship bootcamp aligned to the SDGs, documented by Tec as the largest in Latin America in its category.
- 2020 edition: **400+ university students** trained and **111 ideas** generated across 4 regions, with 12 finalists to Tec Lean Explora. REDUX Agro 2021: 350+ participants.
- Designed the full methodology: 8 activities that guide teams from zero to pitch deck, structured across 3 verticals and 4 regions with dedicated finalists in each region.
- Published the full curriculum openly (34 videos), versioned the program by HGC vertical, and left the methodology in Tec de Monterrey's official program directory; youngest author in the directory.

Platzí · Talent Development Coach

Jan 2020 – Jan 2021

- Supported students in developing technical and professional skills to improve their employability in digital environments.
- Designed personalized learning paths based on career goals, knowledge gaps, and progress level.
- Facilitated sessions on professional communication, career strategy, productivity, and digital literacy.
- Collaborated with instructors and industry mentors to align the learning experience with real market needs.
- Operated within Platzí, the largest technology school in the Spanish-speaking world, supporting students across Latin America.

Grupo Gamma Peninsular · Technology & Innovation Project Manager

Jan 2019 – Aug 2020

- Managed a portfolio of **15+ enterprise software projects** focused on digital transformation, operational improvement, internal processes, and customer-facing applications.
- Coordinated the development and implementation of technology solutions, including digital products, internal platforms, and automations.
- Implemented Agile methodologies for backlog management, prioritization, deliverable tracking, and improvement cycles.
- Automated and standardized workflows across internal platforms and customer-facing applications, reducing operational friction across the portfolio, with DevOps integration.
- Coordinated multidisciplinary development, analysis, and product teams to ensure execution and alignment with business goals.

EBC · Professor of Entrepreneurship & Innovation

Sep 2019 – Jan 2020

- Delivered learning experiences focused on entrepreneurship, innovation, and business skill development.
- Guided students in idea validation, strategic thinking, and designing solutions for real market challenges.
- Prepared students competing in the regional edition of the Hult Prize.
- Integrated case studies, Agile methodologies, and innovation frameworks into coursework.

CodersLink Talent · Director of Public Relations & Recruitment

Jan 2016 – Dec 2018

- Led recruitment strategies and alliances connecting Mexican tech talent with international technology companies.
- Contributed to **1,000+ developer placements** in remote opportunities with U.S. technology companies.
- Developed partnerships with universities, bootcamps, and tech communities to strengthen talent attraction.
- Led external positioning across Mexico's tech ecosystem (events, employer branding, and candidate experience), feeding the talent attraction pipeline.

Events · Event Producer & Experience Designer · Independent professional

May 2011 – Jun 2020

- Produced events, conferences, congresses, and in-person experiences, handling logistics, technical production, and team coordination.
- Contributed to the production of **50+ large-scale events** with **5,000+ cumulative attendees**.
- Coordinated vendors, sponsors, talent, and multidisciplinary teams to ensure execution in high-complexity contexts.
- Implemented digital tools and interactive experiences to improve participation and engagement.
- Built a solid operational foundation in stakeholder management, negotiation, logistics, and in-person project execution.

CORE COMPETENCIES

- **Strategy & Programs:** Program Management, Program Design, Program Operations, Operating Model Design, Strategic Planning, Innovation Management.
- **Partnerships & Ecosystems:** Strategic Partnerships, Partner Enablement, Ecosystem Development, Stakeholder Management, Entrepreneurship, Community Development.
- **Operations & Commercial:** Project Management, Process Automation, Digital Transformation, Agile Methodologies, RevOps.
- **AI & Automation:** AI Agents, LLM Orchestration, Prompt Engineering, Conversational AI (voice and WhatsApp), AI Workflow Automation, AI-assisted instructional design.
- **Learning & Relations:** Talent Development, Learning & Development, Startup Mentoring, Teaching, Facilitation, Event Production, Experience Design, Talent Acquisition, Employer Branding, Public Relations.
- **Tools:** HubSpot, Make, WhatsApp Cloud API, VAPI, Claude API, ElevenLabs, Notion, Figma.

EDUCATION, CREDENTIALS & VOLUNTEERING

- Bachelor's Degree in Political Science and Public Administration, SEP accredited (Agreement 286), 2024 to 2025.
- Notion Ambassador, active credential (confirmed Aug 2026).
- FIJE: Executive Leader, Softlanding Program (2020 to 2022).
- Global Shapers Community, World Economic Forum (2020).
- COPARMEX Mérida: VP of Entrepreneurial Development and Innovation (2019 to 2022).
- COPARMEX Mérida: VP of Projects and University Chapters (2016 to 2019).
- COPARMEX Laguna: VP of External Relations (2015 to 2016).
- Publication: Author of REDUX, a methodology adopted in educational communities.
